PART NUMBERS

Select model & arm rest choice, then complete with material & color code in place of "XX".
 MD Premium seats are in the table on the left and MD Standard seats are in the table on the right.
 In most applications the non-isolating seat should be used. If you have questions, please contact customer service at the number below. All applications shown except GMC Top Kick use non-isolating seats.

Seats must be used with vehicle OE approved seat belt combinations to ensure compliance with federal safety standards.

The Standard MD series offers single air lumbar, cushion extension, rear cushion tilt, and recline.

ALL THE RIGHT MOVES

Whether you choose the Standard or Premium series seats for your vehicle, National Seating MD seats offer you a multitude of adjustments to ensure you get the best match to your body possible to ensure your comfort.

The Premium series adds to what the Standard series offers with triple air lumbar, air cushion bolsters, air back bolsters, and front cushion tilt.
